

## RVCG Task day with repairs at Hind Wheel January 2025

The RVCG Task team was out in force on Sunday 26<sup>th</sup> January 2025 working to make repairs around Hind Wheel. This involved barrowing a huge amount of stone and path topping material to level and repair the footpath around the dam damaged in recent storms. The goit at Hind Wheel had also become clogged and so was cleared. Thanks to all who took part helping that day.
