

Open meeting 13th November 2025 on "Sheffield Swift Network"

About 40 people attended a great talk given by Chet and Lorna. They gave a presentation on their initiative to help save the swift population locally. The middle class suburbs are the worst offenders with their anti-bird uPVC soffits. Chet and Lorna provided a selection of alternative swift houses and gave a very interesting talk on the amazing life of a swift. See: [Sheffield Swift Network – Taking action to help swifts across the city of Sheffield.](#)
