

November Task Day

Sunday 30th November Task Day was very well attended with 23 volunteers including 3 new attendees. Maybe the promise of mince pies and mulled wine was partly responsible. Shrubbery was cleared from around Havelock dam and along the footpath from Hollins Lane to the Park. Graffiti was removed from various fixtures and the Rivelin park planters were cleared of dead growth. We planned a litter pick but found that much had already been cleared. However remaining litter was cleared including several large gas canisters. A mobile team went to clear the goit at Mousehole Weir to find it blocked with a huge brickwork block. It took the efforts of 4 volunteers to remove it.
