

Task Team May 2026

At the end of May, task team leader Graham Appleby, ran the first RVCG task day since last November 2025. Twenty-two volunteers met at Havelock Dam on a warm sunny day, some attending for the first time including the Haywood family with 3 children who did an excellent job pulling balsam out at Roscoe Weir. Other volunteers cleared the undergrowth around Havelock Dam, painted signposts and litter picked between Havelock and Rivelin Park along Rivelin Valley Road. The Louths planted up the large planters in Rivelin Park with plants supplied by Valleyside Garden Centre.
